New Distributor for Australia and New Zealand

TOPTICA Photonics AG is pleased to announce that Lastek Pty Ltd will become their distributor in Australia and New Zealand from the 1st of September 2005. Lastek is a leading sales and service organisation for advanced laser systems in Australia and New Zealand, and for many years was the Spectra Physics distributor. Lastek's head office is at the University of Adelaide Thebarton Campus, where Lastek has well equipped workshops and laboratories for the support of the systems it sells. Of its 14 staff three are PhD physicists and four are graduates in science and engineering. TOPTICA looks forward to significantly growing the market for their products in this region with Lastek's competent support.

Alex Stanco, Managing Director

TOPTICA Photonics AG develops, manufactures, services and distributes technology-leading diode and fiber lasers and laser systems for scientific and industrial applications. Sales and service is offered worldwide through TOPTICA Germany and its subsidiary TOPTICA USA, as well as all through 12 distributors. A key point of the company philosophy is the close cooperation between development and research to meet our customers' demanding requirements for sophisticated customized system solutions and their subsequent commercialisation.
