**TOPTICA Photonics AG, one of the world's leading manufacturers of high-end laser systems for scientific and industrial applications, has again been included in the prestigious "BAVARIA'S BEST 50" list. This award once again underlines TOPTICA's outstanding performance and commitment to thrive and grow in a highly dynamic and competitive market environment.**

"BAVARIA'S BEST 50" is an initiative of the Bavarian State Ministry of Economic Affairs, Regional Development and Energy and annually honors medium-sized companies that have been able to increase both their sales and the number of their employees at an above-average rate in recent years.

This year's award confirms TOPTICA's continuous investment in innovation and excellence. The company has established itself as a pioneer in the laser and photonics industry by continuously investing in research and development and offering innovative solutions to its customers worldwide.

"We are very proud of this award. It is a recognition of the hard work and dedication of our team," said Dr. Wilhelm Kaenders, founder and board member of TOPTICA. "This success is a testament to our philosophy and aspiration to be at the forefront of technological development, contributing our share to progress in a wide range of industries and research areas."

TOPTICA will continue its efforts to consolidate its position as a leader in the laser and photonics industry, thus continuing its successful company development. The award as BAYERN'S BEST 50 is an important milestone on this way.

### **TOPTICA Photonics**

The TOPTICA group today has 490 employees in 7 entities with a consolidated group revenue of close to 130 Mio € (141 Mio \$). Founded in 1998 near Munich (Germany), TOPTICA became one of the leading laser photonics companies by aiming for, and consistently delivering high-end specifications. TOPTICA develops and manufactures high-end laser systems for scientific and industrial applications. The portfolio includes diode lasers, ultrafast fiber lasers, terahertz systems and frequency combs.

OEM customers, scientists, and over a dozen Nobel laureates all acknowledge the world-class exceptional specifications of TOPTICA's lasers, as well as their reliability and longevity.
